

What did ATLAS do to prepare for BS EN 62305 (European LP Standard) parts 1, 2, 3 & 4?

Arranged for members of the technical committee overseeing the standard to lead a series of Workshops where member's employees were able to learn about the new approach and how to apply the requirements of the standard

How does ATLAS verify that member's employees have an understanding of the standard?

ATLAS offer members employees the opportunity to demonstrate they have a working knowledge of the standard by offering them the opportunity to take a written test set by the team that led the Workshops. The tests are set in two papers, paper one consists of 1 (General Principles), 2 (Risk Management) and 3 (Physical damage to structures & life hazards). Paper two consists of 4 (Electrical & electronic systems with structures). Certificates of Competence are issued to those who meet the requirements. To obtain a 'Pass' a 70% mark is required and 85% attains a 'Pass with Distinction'.

The following is a list of those people issued with an Accreditation Certificate.

BS EN 62305 PARTS 1, 2, & 3				BS EN 62305 PART 4		
Name	Sponsor Company	Date	Pass / Distinction	Date	Pass / Distinction	Certificate Reference
Paul Brown	Best Services	01/07/08	Pass			001
